KEY PROJECTS

DM360 (In development)

I lead the design of DM360 a digital automation platform for managing ads, SEO, email campaigns, and social media.

I collaborated with developers, product manager, and technical team lead to deliver a robust and smooth digital product that aligns with the business and users goal.

Community Shield (Live Project)

Community Shield is a security digital products that is focused on ensuring the safety of people in their homes, offices, and events. The products is designed for estate management and surveillance to ensure the safety of users by providing them with access pass features, verification features, as well as emergency alert feature.

I lead the design and research aspect of this products and collaborated with developers and products manager, and technical lead to deliver a smooth product suitable for use and acceptance in the market.
